---

The figures set out in this report show the attendance of each member of the Council at meetings of the Council, the Executive, committees and sub committees, Development Committee site visits, meetings of external bodies to which Members of the Council have been appointed by the Council, meetings of formal working groups set up by Council committees, Parish Cluster meetings and Parish Council meetings to which members have been invited in their capacity as Ward Members but not if they are a member of that Parish Council, where that information has been provided.
